EURO-MEDITERRANEAN WORKSHOP ON GENDER AND SCIENCE

29-30 May 2014
Città della Scienza · Naples

SHEMERA - SHE EURO-MEDITERRANEAN RESEARCH AREA EUROPEAN PROJECT

SHEMERA - SHE Euro-Mediterranean Research Area- is a European project funded under the FP7 which aims to enhance research cooperation on gender and science between the European Union and the Mediterranean Partner countries (Algeria, Egypt, Jordan, Morocco, Lebanon, Palestine, Syria, Tunisia). It is providing the state of the art, data collection and relevant comparative analysis in Mediterranean Partner Countries about gender equality and policies in research careers.

The purpose of the Euro-Mediterranean Workshop is to discuss policies for the promotion of gender equality in research in the Mediterranean area in the short- and mid-term, taking into account findings of previous European projects, the project's results and the policy debate that was held in each of the National workshops organized in Mediterranean Partners Countries as part of the SHEMERA project. Targeted audience are SHEMERA partners and national representatives of women/gender-sensitive scientific associations in the Euro-Mediterranean Area.
